

Additional Questions Regarding the San Juan Capistrano Utility Systems Requests for Proposals

On this page, OC LAFCO will post the responses to any questions received after the pre-proposal conference.

Section 3 of the RFP requires analyses of the three potential successor agencies. The analysis is to include operational capacity. By this do you mean physical infrastructure of treatment and distribution systems in addition to the financial data requested?

No, activity number 3 of the Scope of Work in the RFP for the “Fiscal Assessment of Alternative Service Options” is a Fiscal Assessment of the Alternative Providers. The financial ability and operational capacity of the alternative service providers is related to the fiscal assessment of those agencies.

If the answer to the above question is yes, have the potential successor agencies agreed to provide the needed information in accordance with the proposed schedule?

N/A
